REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-5, 14 and 17 have been allowed because applicant's arguments have been found to be persuasive. In particular, it is noted that while Otsuka teaches an arrangement in which is capable of having a set of drive parameters that is different while a leading edge of a print media passes through a print zone, he does not necessarily teach that the parameters *are* different each time a print media leading edge passes through the print zone. Or as applicant mentions on page 5 of his appeal brief, second paragraph, Otsuka does not teach a parameter for driving the print media through a print region that changes based on whether a leading edge of the print media is between roller members or whether the print media extends fully between the roller members.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
